

Tavistock Primary and Nursery School

Week beginning: Monday 29th June

Year 5

English

<https://www.literacyshed.com/23-degrees-5-minutes.html>

(Scroll down to '23 degrees 5 minutes')

In the opening scene we see an explorer in the frozen arctic. He is looking for someone, it is left up to us to decide who it is. The film then wanders back in time as the narrator/explorer recalls his days at University in Ireland where he studied under Professor Orit. (The man who is missing in the opening scenes.)

It brings us back to the present day and the predicament of the explorer. Who will he meet? Will he find the professor ever again?

- Rewrite the story recounting his days in the arctic.
- Describe the opening setting using similes, metaphors and personification.
- Rewrite the film as journal entries recounting the important events of the film.
- Write a newspaper report about the disappearance of the professor.
- Use maps to see where the voyage would take him.
- **Extension:** Rewrite the ending, maybe the explorer goes with the 'professor' and he shows him his workshop etc.
*Keep writing in your diary!

Exercise:

To keep your body strong and healthy, repetitions of exercises that work your muscles are perfect. Design a daily routine that involves up to 30 repetitions of: press ups, sit ups, lunges, star jumps and squat thrusts. 3 times through works well! You may want to start with fewer exercises and see if you can improve daily. Keep the quality of the exercises high!

Maths

- Try to achieve your best score of times tables on Rockstars, Hit the button or Topmarks.
- Test all of your times tables. Try using the inverse (dividing) too.

Multiplying fractions

This week we are learning how to multiply fractions, follow this link to learn the methods and how to apply them: Watch the videos and complete the worksheet tasks.

<https://www.bbc.co.uk/bitesize/articles/z82tjsg>

- To challenge yourselves further, look at the daily lessons link at the bottom of the page and select an additional task.
- Create some word problems involving multiplying fractions, include examples of your own, try to answer them.
- Reward yourself with one of the games on this website when you have completed a task.

Science:

<https://www.bbc.co.uk/teach/class-clips-video/science-ks2-the-work-of-carl-linnaeus/zhnjfl4j>

- For this week's science you could write a simple quiz to explain and learn the keywords shown in the video.
- Write your own definitions from these words using the internet, or science dictionaries to improve your scientific vocabularies. You can include diagrams and images.
- Use pictures, books and films to identify animals in different locations, like the desert or jungle.

Topic -History- The Kingdom of Benin:

<https://www.bbc.co.uk/bitesize/articles/zfbcf82>

Have you ever heard of the ancient kingdom of Benin? Use this link to find out all about it. This would be a good outlet for some work to be posted on Tapestry!

PSHE - Try to do one good deed a day!
