

Tavistock Primary and Nursery School

Week beginning: Monday 6th July

Year 5

English

<https://www.literacyshed.com/passingthrough.html>

'Light beams pass over and dance around the beautiful landscapes of the world.' This film with special effects can inspire some amazing descriptive writing.

Writing ideas...The light beams could be probes sent by aliens - spying on the Earth and then forming a landing site at the end.

Watch the film a number of times, thinking how it could be the inspiration for some descriptive writing. You could describe all the things the light beam has witnessed on its continuous journey. How/where was it created, how will you describe its journey through space and over the different types of land, how will the journey end? Collect useful vocabulary from the film that you might use alongside your own ideas and words. *Keep writing in your diary!

Exercise:

Yoga is good for the body and mind. This is aimed at teenagers, but is fine for you. Try to get a family member involved

<https://www.youtube.com/watch?v=-6erFajZqP4>

Try to do some yoga every day as well as some harder activity, like a run or cycle that increases your heart-rate and breathing.

Maths

- Try to achieve your best score of times tables on Rockstars, Hit the button or Topmarks.
- Test all of your times tables. Try using the inverse (dividing) too.

Solving problems involving fractions

This week we are looking at how to solve problems involving fractions and how to work out fractions of amounts, follow the links to learn the methods and how to apply them: Watch the videos and complete the activities or tasks.

<https://www.bbc.co.uk/bitesize/articles/zdrbcqt>

<https://www.bbc.co.uk/bitesize/articles/z76qmftr>

- Now try to create your own word problems involving fractions using the links for ideas.
- Reward yourself with one of the games on this website when you have completed a task.

Science - Evolution:

<https://www.bbc.co.uk/bitesize/articles/zfqvtrd>

Evolution is the way that living things change over time.

The first person who explained how evolution happens was Charles Darwin with his scientific theory of natural selection.

For this week's science:

- Watch the video explaining evolution
- Complete the three activities about evolution.
- Carry out the independent research activity about Charles Darwin

Topic -Art and design:

<https://www.bbc.co.uk/bitesize/articles/zbdhnr>

This week, learn about how British painter L.S Lowry used daily life in Salford and Manchester to inspire his paintings, learn some basic artistic techniques and create your own artwork.

Watch the video about how artworks can show us daily life. Follow three practical videos about painting, collage, and printmaking then do one activity to create your own artwork.

PSHE -

How can you 'make a difference' at home? Make a list and do as many as possible.
