

Tavistock Primary and Nursery School

Week beginning: 18th May 2020

Year 3

English

Share a story together. Try a chapter book where you read and discuss a chapter a day.

With your child, look in magazines, newspapers and books for new vocabulary they are unfamiliar with. They could use a highlighter to highlight in magazines and newspapers. Use a dictionary to find the meaning/definition of each word.

Write a postcard to a family member recounting a celebration that has taken place recently.

Write a non-chronological report about a particular event that happens each year. Write about the day and the things that happen on the day of the event. Remember to include your feelings and use lots of adjectives to describe the things you saw.

Maths

Get a piece of paper and show everything you know about Money. This could be pictures, diagrams, explanations, methods etc. You can be as creative as you want to be.

Practise counting forwards and backwards from any given number in 3 or 4s. Really challenge yourself and try three digit numbers.

Try drawing a clock on the ground with chalk. Then, use your body to make the hands of the clock. You could show just the hour or the minute by lying straight, or you could use your body to make both hands.

Set up a Times Table relay race. Run lengths of a space and count in your times tables forwards and backwards?

Get some skittles, smarties or different coloured sweets. Empty them out onto a plate and write down what fraction are red, what fraction are yellow, etc. The denominator is the total number of sweets and the numerators are the different colours. You could use coloured buttons, Lego, fruit etc.

Science and Foundation subjects

Have you got a toy or game that's a bit broken? A jigsaw puzzle that's missing a piece, a board game that has a broken box? We'd like to you look for an opportunity this week to make something better.

Using last week's healthy meal plan that you created, prepare and cook a meal with the help of an adult. Make a note of the stages involved, don't forget the washing up.

Create an amazing paper airplane! Have a go at designing and making a paper plane that can fly the furthest distance, fly the highest, do the most tricks etc. You may need a separate design for each task. Then challenge a family member to see whose paper plane can fly the highest!

Using your knowledge of numbers in French, have a game of the 'Deadly Douze!' or 'Elevens'. Visit the BBC Bitesize website for a reminder of the numbers:

<https://www.bbc.co.uk/bitesize/topics/zjx3cdm/resources/>

Exercise

Design and create your own 15 minute 'High Intensity Workout' that could be suitable for Year 3 & 4 children. Think about our fundamental movement skills (hopping, jogging, skipping, side step and backwards movement) and complete the routine 3 times during the week.

Websites

<https://spellingframe.co.uk/> Work your way through the spelling rules for year 3 and 4.
