## Annual Photo Consent 2019/20

# Annual School Use of Photographic Images Permission

There may be occasions when the school may wish to take and use images of children for educational and promotional purposes. We may use these images in printed publications that we produce as well as on our website or on display boards. We may also make video recordings. In addition, the media may take photographs or recordings at school events which may subsequently appear in newspapers or on television.

Under the Data Protection Act, images of living identifiable individuals are classed as personal data. This means that individuals have rights over how their image is used, and they have the right to give or refuse permission for their image to be used. Any unauthorised or misuse of images is a breach of the Act.

To comply with the Act, Tavistock Community Primary School requires your permission to take, use and store images of your child. Please **tick yes or no** to give (or refuse) your permission for the school to publish your child's image under the following headings. In the event of the school wishing to publish your child's image in any format or publication **not** listed below, we will again inform you and seek your written consent prior to any images being published.

## Images used within school only

My child's photo can be used within the school setting in work books or on display boards

☐ Yes
