

Use the digits below to make as many different numbers as you can. **5 3 7**

Write the numbers in words.

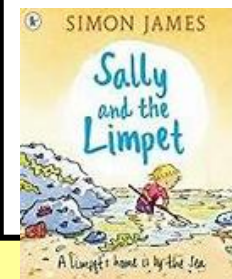

## Years 1 and 2

Week Commencing  
Monday 15th June

### DID YOU KNOW?

...1 million seabirds and 100,000 sea mammals are killed by pollution in the ocean each year.

### This week in **MATHS**: PLACE VALUE CHALLENGES

Use the number cards to make the following numbers:

Use 2 of the number cards to make a number more than 60.

Use 2 of the number cards to make a number less than 40.

What is the smallest 2-digit number you can make?

What is the largest 2-digit number you can make?

How do you know this is the largest number?

True or False:

One ten and twelve ones is bigger than two tens.

Explain how you know.

Order the amounts below from smallest to largest.

2 tens and 5 ones

27

2 groups of 10 and 8 ones

1 lot of 10 and 19 ones

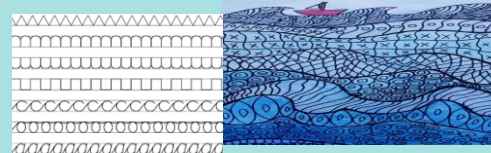

### This week in **Phonics/Spelling**:

Year 1s – can you remember the different graphemes that make the /igh/ sound?\* Make a list of words for each.

Year 2s – can you think of words using –tion at the end? Make a list and use them in some sentences.

### Art/Design Technology:

Grace Darling was very courageous rowing her boat out into a stormy sea. You can make a stormy sea by practising your handwriting patterns within each wave and then painting it blue. Try and pick a different pattern for each wave. If you don't have paint, you can use felt tip pens or even crayons. Then you can make a little boat to stick on the top of the dangerous ocean.

### READING

Read a book to someone in your family or ask them to read one to you. Now take it in turns to describe the different characters and see if you can guess which one is being described.

### Physical activity:

Design your own workout but with a sea theme. You could do 10 star jumps, 5 push up crabs, wiggle like an eel for 1 minute etc. Time yourself each day and see if you can improve!

### Useful websites:

Register with Oxford Owl to explore lots of reading resources and e books for all levels. Excellent website!

### This week : **The Seaside**

During this half term our learning will be linked to 'The Seaside'. Think of all the words associated with the seaside and make a wordbank (e.g. waves, seaweed, bucket and spade...)

History: we are comparing seaside holidays in times past to seaside holidays today. Research differences and similarities, comparing 1900 to 2020? Draw pictures and write about what you find.

Science: Investigate the problem of plastic in the oceans. Draw a poster warning people of the dangers. Plus, what are the flags that lifeguards use on the beach? What do

\* igh, ie, i-e, y, i

e.g. light, tie, five, sky, kind

May help to use with phonics
