

Week Commencing  
Monday 13th April

Years 1 and 2

# Home Learning

Make a list of the foods you and your family eat that have seeds in. Did you know that sweet corn and peas are seeds?

## This week in MATHS:

- Use small objects and find doubles of numbers 0 - 12 and halves of even numbers 0 - 30. Learn them off by heart. Year 2s: link these to  $\times 2$  and  $\div 2$  and challenge yourself with higher numbers.
- Make a board game – when you land on some of the squares you have to say the double or the half to win an extra turn. Miss a go if you get it wrong!

## This week in Geography:

### Hot and Cold Climates

Over the next few weeks we want you to explore BBC Teach Geography KS1 'Your World' web page and compare living in hot and cold countries.

This week: What does Talia see from her window? What does Khynaan see from his? Draw or write about what they see.

## This week in ENGLISH:

Read the story 'The Tiny Seed' by Eric Carle or listen to it on YouTube. Draw 6 pictures to sequence the events of the story and write in your own words the story of the seeds journey. Can you tell the story to someone in your family?

## This week in SCIENCE:

If you have some seeds, try growing them in different conditions – keep a diary to show what happens.

Look out of your window or in your garden – what is growing? Draw a labelled diagram.

### Music:

Make a shaker using seeds or dried pulses. Use to play a rhythm or beat and dance along to your favourite songs.

### Art/Design Technology:

Use paint or felt tip pens to cover a sheet of paper in shades of yellow and orange. Then cut out 6 large petals and stick down to create a sunflower collage. What could you use to make the stem, leaves and centre part of your flower? Does it look like the sunflower on the front of Eric Carle's book?

## READING

Plants like to be spoken to!  
Choose a favourite book and read it to a plant.

### Phonics/Spelling:

Challenge yourself to spell 10 things you can see from your window or in your garden. 2 of the words should have 6 letters or more! Write a sentence to include each word.

### Physical activity:

Find a safe place to practice throwing and catching a ball. Can you throw a ball to a partner? Can you throw under arm, over arm and catch and throw with both your left and right hand?
